***Response to Amendment***

Applicants' 116 amendment filed on August 28, 2006 has been entered and forwarded to the examiner on September 01, 2006.

Therefore claims 13-20 as recited in the previous amendment are currently pending in the Application.

Claims 1-12 were previously cancelled.

***Allowable Subject Matter***

Claims 13-20 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitation of the dependent claims, in such manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The applied prior art fails to teach a combination of all the claimed features as presented in independent claim 13 including the combination of all elements recited therein including "an insulating region present atop said bottom Si-containing layer, said insulating region having at least one partial opening therein". (See also USP No. 6,689,650).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
